POPULAR TIRE CHANGER ACCESSORIES

Coats® has a long history of tire changing innovations. For years, our mantra has been "We're Changing More Than Tires!" and for good reason. If we developed a faster or more ergonomic way to get the job done, we integrated that technology into our machines. Take a look at some of our innovations that have changed the industry.

TOP 3 OPTIONAL ACCESSORIES

EL-X EXPRESS LANE® INFLATION SYSTEM

(PN 85607770)

Eliminates the inflation process wait time on the tire changer resulting in faster bay turns and reduced customer wait times.

POINT OF USE LIFT SYSTEM

(PN 85608609)

The Coats® Point of Use Lift System helps you elevate heavy tire and wheel assemblies up to tabletop height with minimal effort.

AUXILIARY BEAD SYSTEM (ABS)

(PN 85606545)

Taps directly into the tire changers surge tank and assists in seating virtually any tire assembly.

DUCKHEAD® MOUNT/DEMOUNT TOOL

The Duckhead® mount/demount tool is designed to lift the bead above the spoke.

PLASTIC DUCKHEAD® MOUNT/DEMOUNT TOOL

NYLON DUCKHEAD® MOUNT/DEMOUNT TOOL

(PN 8183061)

Designed for added rim protection and replaces the steel Duckhead® mount/demount tool and fits RC-45, RC-55, X-Series®, and GTS Series models.

HIGH SPOKE PLASTIC DUCKHEAD® MOUNT/DEMOUNT TOOL

(PN 8184432)

The Plastic Gray High-Spoke Duckhead® mount/demount tool is designed for high-spoke wheels, lifting the bead above the spokes and is compatible with all X-Series® and RC Series tire changers.

HYBRID DUCKHEAD® MOUNT/DEMOUNT TOOL

(PN 85608959)

The plastic floating tail conforms to the rim to mirror its radius thus placing the tire in the optimal position for installation.

*Replacement plastic tail (PN 85608961)

STEEL DUCKHEAD® MOUNT/DEMOUNT TOOL

(PN 81827881)

For all 50x and 70x series Rim Clamp® tire changers. Requires taper end vertical shaft.

*Replacement plastic inserts (PN 8182961)

ADDITIONAL OPTIONAL ACCESSORIES

GRIP MAX® PLUS CLAMPS

(PN 85607787)

Offers twice the slip resistance than the traditional clamps and built in rim protectors eliminate metal on metal contact.

GRIP MAX® PLUS 28" CLAMPS

(PN 85607986)

Provide a standard external clamping range of 16" up to 28", allowing the convenience of working on a multitude of tire assemblies.

MANUAL BEAD DEPRESSOR & DUCKHEAD® ROLLER

(PN 85609077)

Combo design insures the bead stays in the drop center and tire bead does not roll back over the Duckhead® mount/demount tool.

STEEL CLAMP INSERTS (10)

(PN 8183604)

PASTE LUBE BUCKET

(PN 8183710)

MANUAL DROP CENTER TOOL

(PN 8435685)
