Engineered to Perform. Designed to Last.

4-POST LIFTS

15,000 lb and 19,000 lb Capacity Alignment Lifts

15K Alignment

4T415CSAR1 • 4T415CXAR1 • 4T415OSAR1
4T415OXAR1 • 8K4P15SKITP • 8K4P15XKITP

19K Alignment

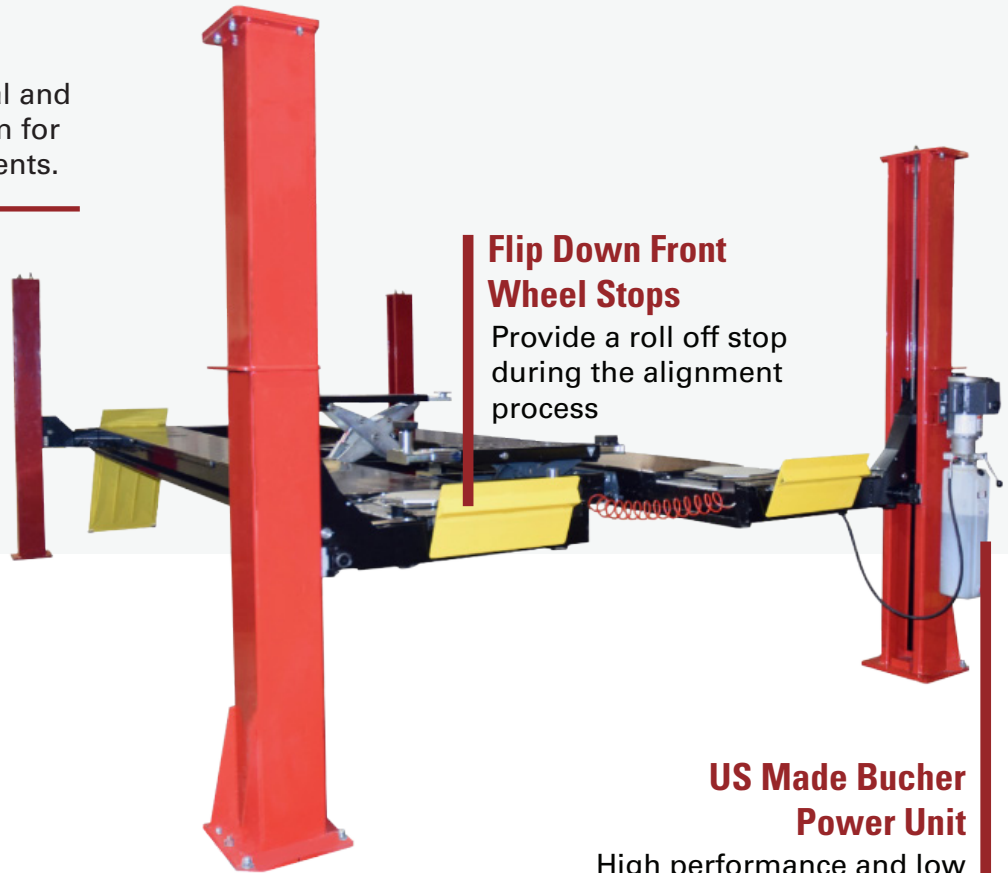

4T419CSAR1 • 4T419CXAR1 • 8K4T419CSAR1 • 8K4T419CXAR1

Perfect for Performing 3D Alignments on All Cars, Light and Medium Duty Trucks

Coats 4 post lifts provide an ideal and affordable multipurpose platform for performing services and alignments.

4 Wheel Alignment
84" to 164 1/2" Wheelbase

2 Wheel Alignment
182" to 209" Wheelbase

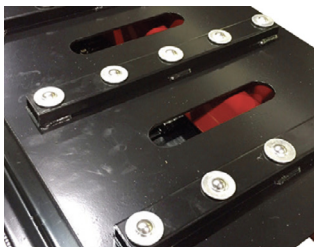

Flip Down Front Wheel Stops

Provide a roll off stop during the alignment process

US Made Bucher Power Unit

High performance and low noise levels at max power

Rear Slip Plates

Open Runway Slots
Chrome ball bearings and open slots allow liquid and shop debris to fall through

Elevated Bearings
Prevent contamination and eliminates corrosion, offering free movement

Front Turnplates

Stainless Steel
Protects against corrosion and premature wear

Polyethylene Pocket Liner
Prevents coating damage while providing corrosion resistance and easy turnplate positioning.

Corrosion Resistant

Powder Coat
Improves durability of the lift by protecting against structural corrosion

Krown Rustproofing
Industrial rustproofing protection sprayed on inside and outside surfaces

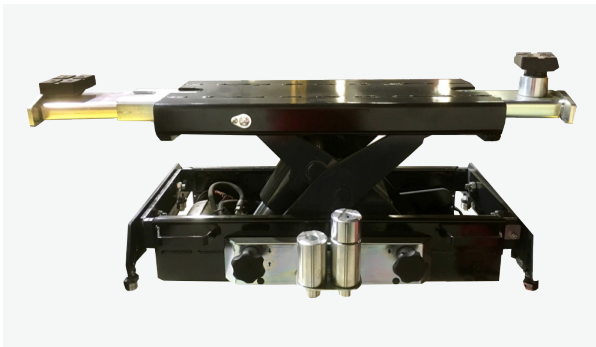

4 Post Alignment Lift Kits

8K4P15SKITP **8K4T419CSAR1**
8K4P15XKITP **8K4T419CXAR1**

15,000 lb
19,000 lb

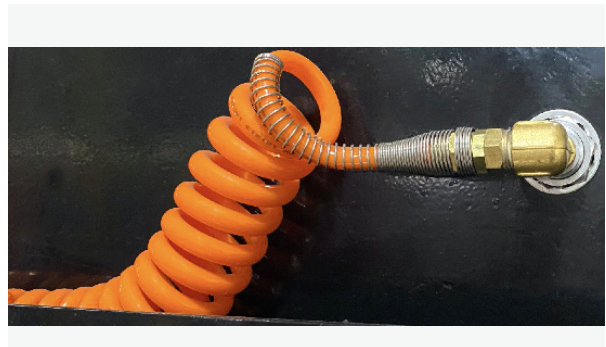

Lift Packages Include

- ✓ Standard or extended length 15K or 19K 4 Post Alignment Lift
- ✓ Accessories for 3D alignments*

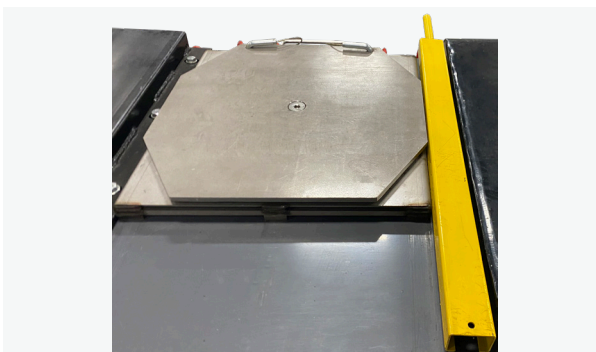

Heavy Duty Rolling Jacks

Two of our premium and best valued heavy duty rolling jacks

Air Kit

Factory installed for technicians to use air tools. Disconnects not provided.

Turn Plate Roll Back Bars

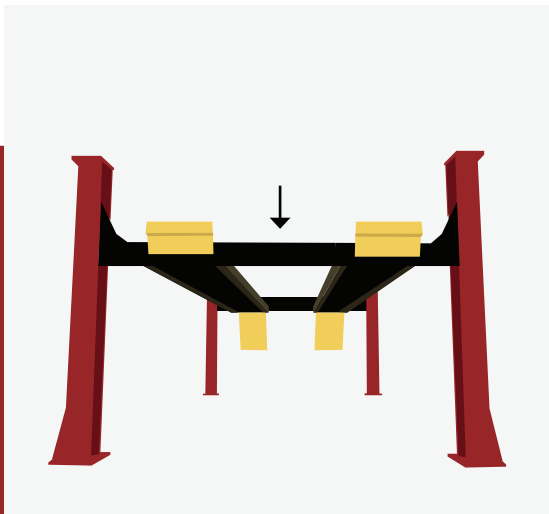

Provides a smooth transition between the turnplates and the runways for accurate alignment readings

Stainless Steel Turnplates

Heavy duty, durable, and reduces corrosion keeping maintenance costs low

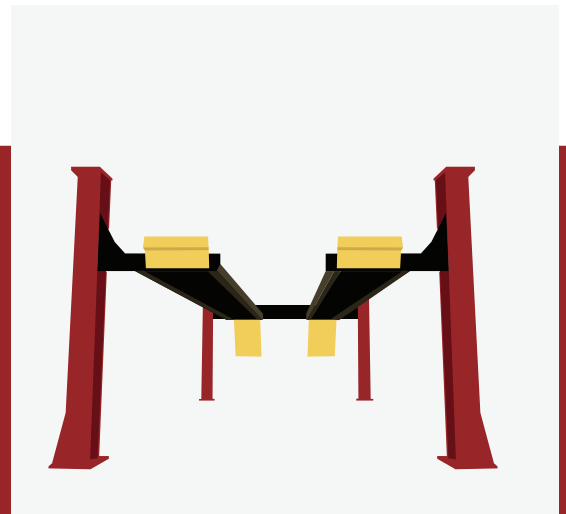

15K Styles

15K Closed Front

Crossbeam across the front posts of the lift enhances stability.

Low collapsed height of 7 3/4" (197mm)

15K Open Front

No crossbar, making it easier for technicians to maneuver under the lift

Low collapsed height of 8 3/8" (213mm)

Camber Neutral

The only 4 Post Open Front lift that allows the front beams to be easily field adjusted for level by a technician.

Shown #4T4150SAR1

S Standard Size

#4T415CSAR1 / #4T415OSAR1

211" Runway Length

X Extended Size

#4T415CXAR1 / #4T415OXAR1

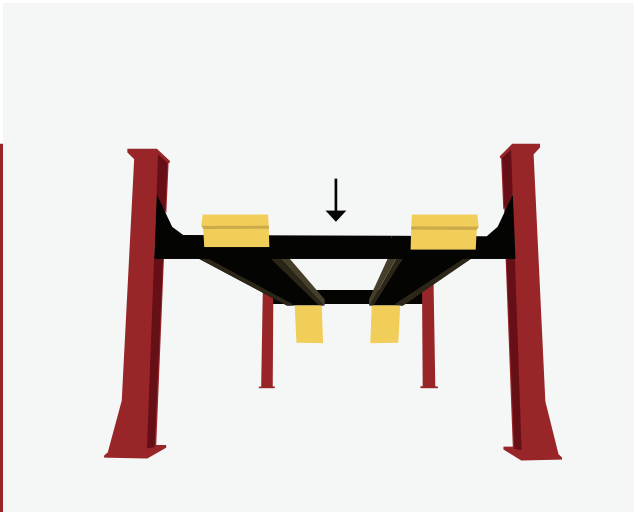

238" Runway Length

Ask About Our 15K Drive Thru Kit!

#4T154PDTK

Having ramps on the front of the lift will add more options for your technicians to drive customer vehicles in and out.

19K Styles

19K Closed Front

Enhanced stability, making it great for larger vehicles like light and medium duty trucks or vans.

S Standard Size

#4T419CSAR1

210 3/8" Runway Length

X Extended Size

#4T419CXAR1

238" Runway Length

Shown #4T419CSAR1

Ask About Our 19K Drive Thru Kit!

#4T194PDTK

Add more versatility to your shop layout by adding drive-thru ramps on the front of the lift.

Double Stacked Pulleys

Pulleys are double stacked on two chrome plated pins with grease fittings allowing lubrication and reducing localized system loading and stresses over a larger area compared to lifts having one pin with four pulleys stacked.

Cables & Pulleys

Prestretched cables reduces the frequency of cable level adjustments. Large machined steel pulleys with self lubricated bearings reduce friction between moving parts.

Grease Fittings

Lubricated grease fittings reduce maintenance costs.

Air Lock Release

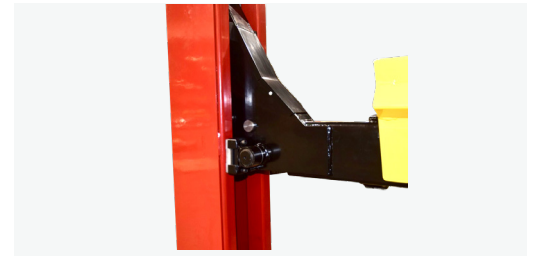

This configuration on the lift ensures quality air with supplied filter, lubricator, and regulator.

Shown #4T4150SAR1

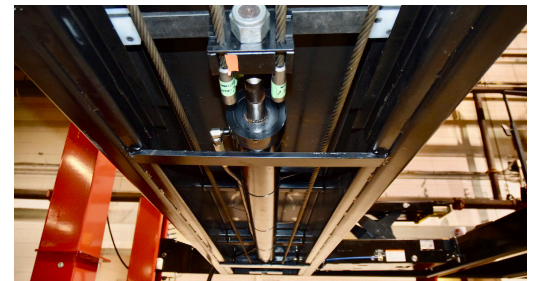

Built to Perform

Our 4 Post Alignment Lifts are designed and assembled in North America using raw materials and parts sourced from premium suppliers. Our lifts undergo third party testing to secure ALI Certification. This testing goes beyond the minimum requirements to provide longer life with less maintenance, keeping total cost of ownership low.

Camber Neutral

Open Front camber neutral adjustable support beams with stronger bearings reducing expensive calibration servicing.

Non-Rotating Trunnions

Prevent twisting and pulling of cables, preventing unwanted damage and uneven stress.

Non-Flex Runways With Z Rail

Reinforced double walled runways reduce flex, increasing alignment accuracy and repeatability.

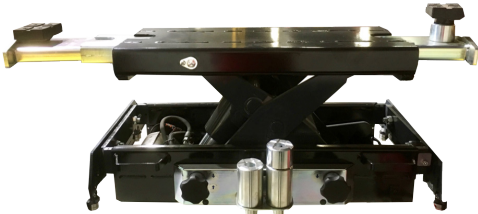

Stainless Steel Materials

Corrosion resistant stainless steel air lock release cylinders to lower cost of ownership.

Add Rolling Jacks To Your Lift!

Expand on your lift capabilities by adding rolling jacks to help perform brake, wheel, alignment, and other services. We recommend two rolling jacks to maximize your shop performance.

5 Year Parts Warranty

Heavy Duty

Includes 2" Rubber Adapters, with 2" and 4" Extension Adapters.

For 15K Lift

7,500 lb Hydraulic HD Rolling Jack

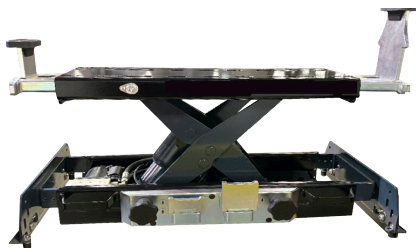

#4TRJ7500HD

For 19K Lift

9,000 lb Hydraulic HD Rolling Jack

#4TRJ9000HD

1 Year Parts Warranty

Standard

Includes 1" Rubber Adapters, with 1-1/2" to 3-1/4" and 8" Extension Adapters.

For 15K Lift

7,500 lb Hydraulic Rolling Jack

#4TRJ7500HA

Add The CWA 6500 Aligner

- ✓ Moveable Cabinet
- ✓ Tracking Camera Beams
- ✓ Vin Scanner
- ✓ Printer
- ✓ Brake Depressor
- ✓ 4 QC Tire Gripping Clamps
- ✓ 4 Standard Clamps
- ✓ Black Diamond Mini Targets
- ✓ Steering Wheel Holder

#8006500

Who We are

The Coats Company is a leading, global manufacturer and distributor of automotive service equipment and solutions. Based in Nashville, TN, we work with shops and dealerships around the world.

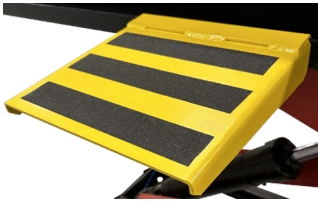

What We Do

- ✓ Maximize your uptime with our durable & reliable products
- ✓ Improve productivity with the fastest floor to floor times
- ✓ Provide easy to use equipment and solutions to our customers

Why Coats

- ✓ **Legacy** - For over 75 years, Coats has been trusted by shops and dealers across the country
- ✓ **Reliability** - Customer and technical service when you need it most
- ✓ **Profitability** - Our products make your shop or dealership more efficient and profitable

15K and 19K 4 Post Alignment Lift Accessories

Moveable Work Step

#4TMWS (Set of 2)

Removable platforms with non slip surface

Stainless Steel Front Turnplates

#4TSSTP (Set of 2)

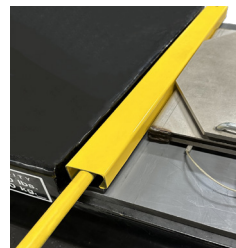

Heavy duty turnplates for alignments service

Rolling Waste Oil Drain

#4T4RWOD

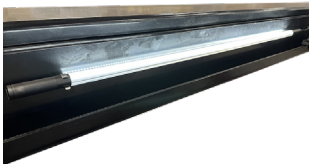

30 gallon capacity with antilosh baffles for automotive liquids and waste

Turn Plate Roll Back Bars

#4TTPRBB (Set of 2)

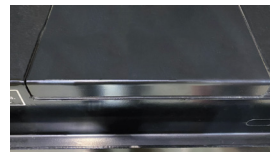

Provides a smooth transition between front turnplates and the runway

LED Lighting Kit

#4TLED1 (Set of 2)

Factory installed LED runway kit illuminating under vehicle

Turnplate Pocket Fillers

#4TSTPF (Set of 2)

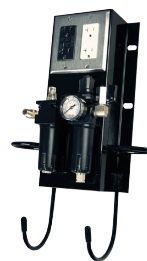

Covers the front turnplate converting the alignment lift to service

Low Profile Ramp Extensions

#4TLPRE (Set of 2)

Non-slip, bolt-on, 3 foot long ramps used for tighter shop spaces and lowered vehicles

Air Electric Station with Tool Holder

#4TAEPS (Individual)

Convenient for technicians to keep tools close to the lift

Air Kit

#4TSKAT

Factory installed for technicians to use air tools. Disconnects not provided

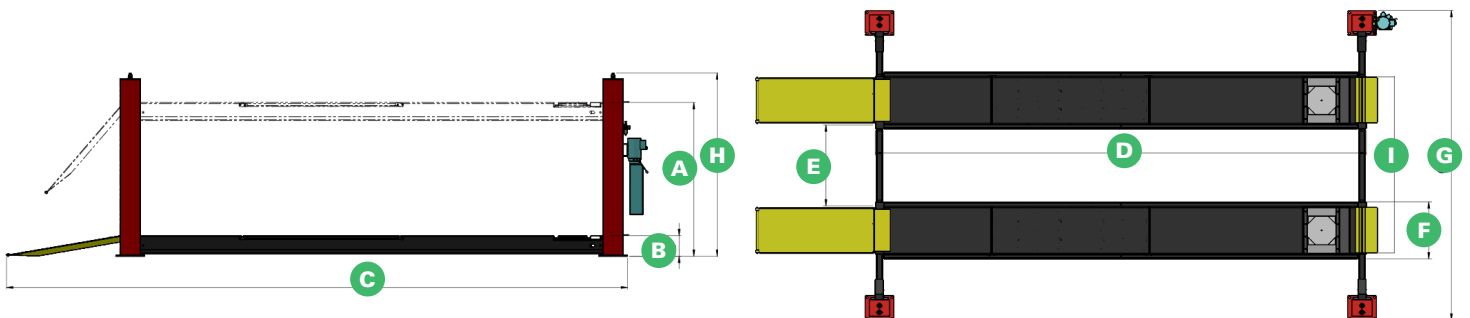

Tire Inflation Kit

#4TTIL (Set of 4)

Built in tire inflation hoses with pressure gauges for all sides front and back of the lift
