For Scissor Lifts and 4 Post Lifts

Coats Scissor and 4 Post Lifts use raw materials and parts sourced from premium suppliers so the lifts last longer with less maintenance. Adding premium accessories can improve overall productivity for your technicians. Keep your shop running efficiently with accessories like drive thru kits, moveable work steps, or low profile ramp extensions to highlight a few.

Drive Thru Kits

#4TSDTK (For Scissor Lifts and 19K 4 Post)

#4T154PDTK (For 15K 4 Post Lifts)

#4T304PDTK (For 30K, 33K 4 Post Lifts)

Create a drive thru bay by adding ramps to the front of the lift for your technicians to move efficiently.

LED Lighting Kit

#4TLED1 (Set of 2)

Factory installed 2000 lumen tube lighting with 75 degree viewing angles. With IK07 impact and IP67 waterproof protection ratings, it's designed to last.

Rolling Jacks

5 Year Parts Warranty

Heavy Duty Jacks

The strong and robust design of Coats Heavy Duty Jacks makes them ideal for assisting in lifting heavy loaded vehicles. Superior structural strength provides longer life and more precise lifting on any Coats Scissor Lift or 4 Post Lift.

1 Year Parts Warranty

Standard Jacks

Expand on your lift capabilities by adding economically priced rolling jacks to help perform brake, wheel, alignment, and other services.

33,000 lb	15,000 lb/6.8 T	N/A	4TRJ15000

Why Coats Heavy Duty Rolling Jacks?

[All Scissors](#)[All 4 Posts](#)

Protected Against the Corrosion and Debris

Tough powder coat finish on frame and scissor components and heavy duty plated arms resist corrosion

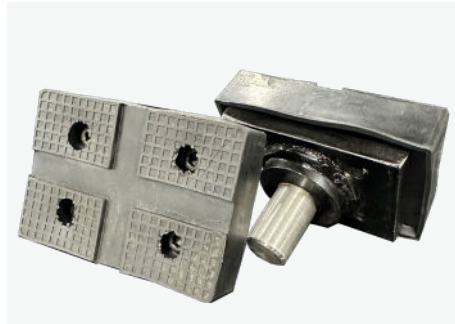

A unique air motor system and pump drives hydraulic pressure for the single hydraulic cylinder and withstands normal airborne moisture and dirt.

Lift Heavy, Unevenly Loaded Vehicles Safely

A two-handed lowering operation with dead man's safety release, an automatic locking device, and an overload valve provide extra safety.

Superior structural strength of HD rolling jacks outlast standard jacks.

Exceptionally low collapsed height of HD Rolling Jacks is ideal for low to ground vehicles.

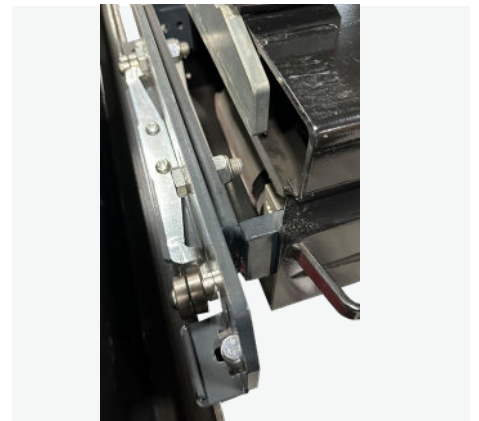

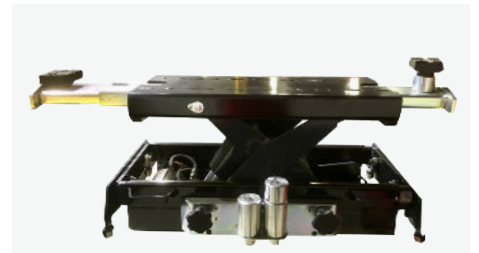

Durable Rubber Adapters

Two durable, square slotted style rubber contact adapters sits on top of the heavy duty plated arms and are supplied with the 1 1/2" and 3 1/4" height adapters.

Height Adapters

HD rolling jacks come with two 1 1/2" adapters and two 3 1/4" adapters.

Stainless Steel Rollers

A single stainless steel flat spring with track rollers and adjustable side thrust rollers eliminates the need to replace the suspension and track rollers.

Telescoping Arms

Two stage telescopic arms extend from 30 3/4" to 59," allowing technicians to reach most pickup points.
