BODYGUARD
VEHICLE DAMAGE DEFENDER

KEEPING YOU CLEAN FROM DAMAGE CLAIMS
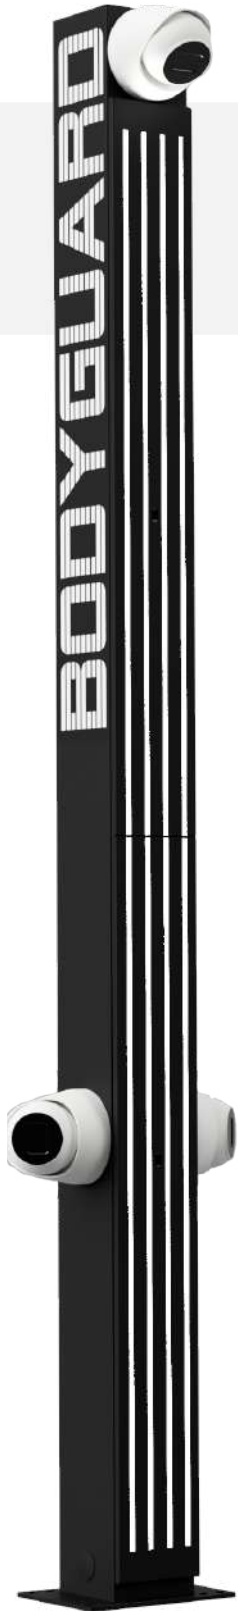

Coats BODYGUARD
Vehicle Damage Defender

The Coats BODYGUARD captures the state of the vehicles' exterior as it enters or exits your car wash using HD cameras and automatic high-powered LED lights. Images and videos are automatically logged into the cloud storage platform for future reference.

BODYGUARD Features

Waterproof Design
Our sealed tower is suitable for any hot, humid wash, inside or out.

License Plate Recognition
Our system uses automatic number-plate recognition technology to read vehicle registration plates and personalize the inspection report.

HD Cameras
Each tower is equipped with 3 high-definition cameras that capture video documentation of each vehicle.

Cloud Storage Platform
Recall footage and images of any vehicle in our user-friendly cloud storage platform by plate number or date.

Claims with BODYGUARD

WHY DO YOU NEED BODYGUARD?

1. If you don't have a damage detection system in place, you're leaving your wash open to fraudulent damage claims.

2. Security cameras in washes aren't enough. They lack searchability, backups, complete angles, proper lighting, and high resolution. If it's not a Bodyguard, it's simply cameras on a pole.

3. Unlike other systems, the modular, flexible setup allows you to fit the needs of YOUR wash within YOUR budget.

BODYGUARD FITS SEAMLESSLY INTO YOUR WASH

6 strategically placed HD cameras capture over 500 images
