Engineered to Perform. Designed to Last.

2-POST LIFTS

16,000 lb and 20,000 lb Capacities

Coats **Heavy Duty** 2 Post Lifts

Best for Extra Wide, Tall, and Heavy Trucks

Our Heavy-Duty 2 Post lifts are suitable for vehicles with a curb weight of 20,000 lb or less, with the weight evenly distributed on each lifting arm. The 16K and 20K models come with various adapters included with each lift to get started right after install.

Shown #4T220SSR1

16K Models

4T216SSR1	Red, Symmetric
4T216SSB1	Blue, Symmetric

Included:
Drop In Adapter Pads
(Full Set)

20K Models

4T220SSR1	Red, Symmetric
4T220SSB1	Blue, Symmetric

Included:
Screw In Adapter Pads
(Full Set)

Air Electric Station with Tool Holder

#4TAEPS (Individual)
Not Included

Single Piece Columns

For structural integrity, the 199 1/2" single piece columns can be special ordered to fit your ceiling height.

Energy Efficient Power Unit

U.S. made Bucher 4HP power unit is designed for greater performance and low noise levels at max power.

2-Stage Symmetrical Arms

With a 62" reach, our arms are better designed to reach challenging lift points with lowered pad heights to assist.

Arm Restraints

Heavy duty arm restraints are more stable under heavy or uneven loads when supporting larger capacity vehicles.

Oversized Stable Base

Larger and irregularly shaped base plate is 17" x 31" and is 1" thick to create greater stability and reduce floor stress.

Air Release Locking System

Single point locking system with filter, regulator, and lubricator is for precise locking and protection from contaminants.

The Coats Heavy Duty Advantage

Wider Space Between Columns

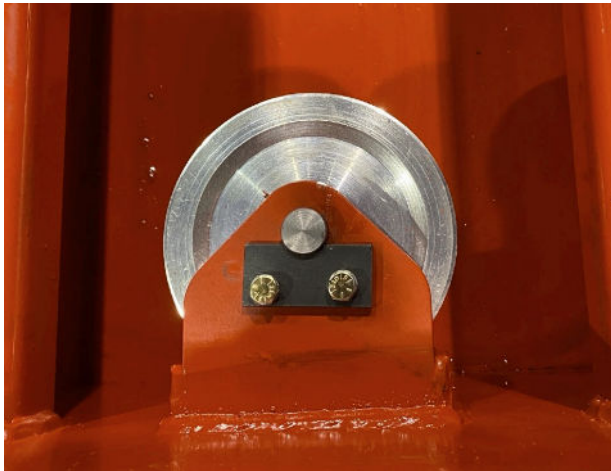

The 106 1/2" drive-thru width between columns accommodates larger, wider trucks.

Protect Against Structural Corrosion

Heavy Duty columns have a premium double baked, powder coat finish to withstand the harshest working environments.

More Height

With adapters, the 16K raises to a height of 87 1/2" (85 1/2" for 20K) to give you even more under-car working height.

Machined Steel Pulleys and Pre-Stressed Cables

Self lubricating bronze bushings and large diameter cables reduce maintenance costs.

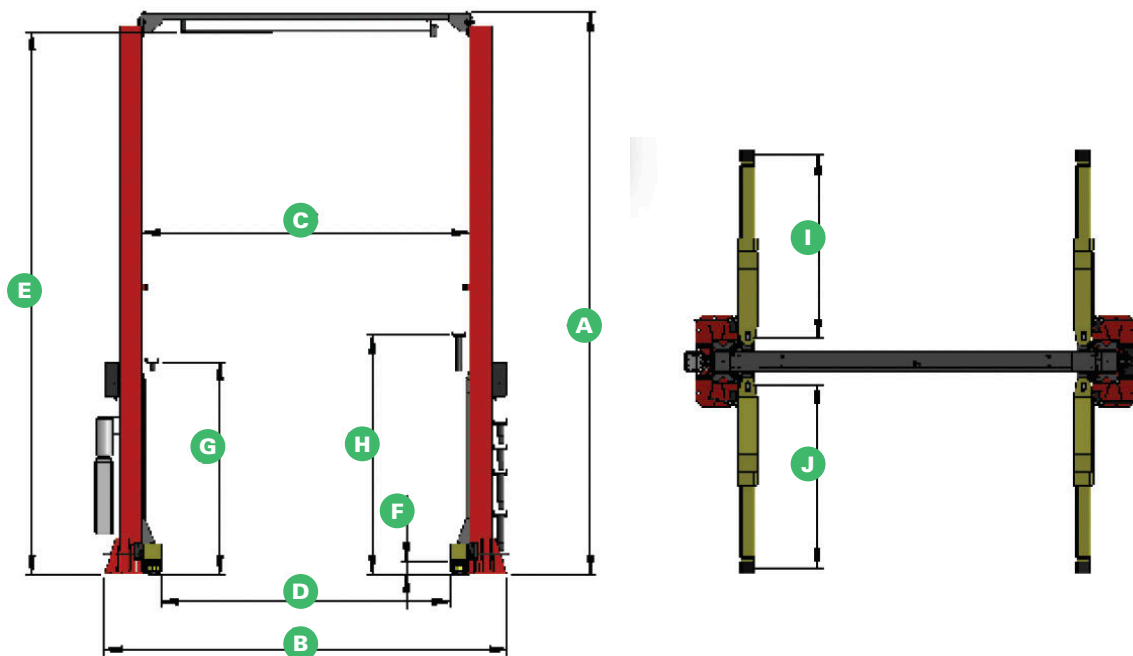

Low Height With Adapters

The 4" (for 16K) and 5" (for 20K) measurement with adapters provide better clearance and access to correct lift points.

SPECIFICATIONS

	16K Symmetric	20K Symmetric
Capacity	16,000 lb/7.3T	20,000 lb/9T
ALI Certification	Yes	Yes
Lifting Arms	2 Piece Symmetric	2 Piece Symmetric
A Overall Height	199 1/2" (5,067mm) (Optional Heights Available)	199 1/2" (5,067mm) (Optional Heights Available)

Why Choose Coats Lifts?

ALI Associate Member

Coats distributes ALI Certified lifts and is an active ALI Associate Member.

North American Assembled

Coats uses premium components sourced in the U.S. and abroad.

ALI Lift Inspections

Our lift inspectors are certified to perform ALI Lift Inspections for any lift brand. Book with us today!
